

Job Opportunity Application Conditions

Job Opportunity Application Conditions

Effective Date: 01.11.2025

1) Legal Nature and Scope

These Conditions set out the mandatory rules that Service Providers on Temizlikiste.com ("Platform") must follow when **applying to package-based job opportunities** and upon **assignment**; they form an integral part of the **Service Provider Agreement**. The Platform offers **standardized service packages**; there are **no free-text offers and no negotiation flow**. Applications are made based on predefined parameters (package, duration, people/team size, **with/without materials**, location/date/time). Messaging on the Platform is not used; **once the booking is confirmed and phone numbers are mutually visible**, the parties communicate directly.

2) Definitions

Job Opportunity: Record with fixed package, date, time, address/location, duration, and people/team size.

Application: Binding expression of interest by the Service Provider including **team size, material status** (with/without materials), and **availability**.

Assignment: **Appointment** of a verified Service Provider by the Platform.

3) Eligibility, Competence, and Priority Criteria

Apply only if aligned with your **expertise, team/equipment, material status**, and **schedule**. **Proximity** matters; very distant applications are deprioritized. For **material-required** jobs, **applications with materials** have priority; **without materials** may be ranked lower. Where a **team** is required, **full-team** applications are prioritized. If chemical/equipment/working-at-height or other **OHS** requirements cannot be met, do not apply.

4) Package Model, Scope, and Duration

Packages are **time-boxed**. Tasks listed in the package are executed **within the package time in order of priority**; this is **not a completion guarantee**, but a **best-effort within the time**. Team size and task split are defined by the package; **like-for-like capacity adjustments** may be made for operational reasons. **Out-of-scope work** is only possible with **explicit mutual agreement** and **extra time/fee**.

5) Application Content and Accuracy

Your application must accurately state **team size, material status, invoice/receipt** and **availability**. **Misleading declarations** or **token applications with insufficient team/material** are prohibited. **Arbitrary changes after assignment** are not allowed.

6) Timing, Arrival, and Discipline

Punctuality is mandatory. If delay is likely, inform the counterparty **by phone** in good time. Arrival window and plan are confirmed **after assignment**. **No-shows** are sanctionable.

7) Materials, Access, and OHS

For **with-materials** applications, the Service Provider supplies consumables and basic equipment; follow **manufacturer instructions** and **OHS rules; risky mixtures are prohibited**. For **without-materials**, the Client supplies suitable materials/equipment. The Client must provide **correct address, access/entry codes, water/electricity**, and a **safe workplace**. **Privacy** must be respected; no access to locked/private areas.

8) Communication Mode (Mandatory Rule)

The Platform provides **no free-text/notes/messaging**; no commitments may arise therefrom. **After assignment**, phone numbers are mutually visible; coordination and changes occur **directly**. The Platform is **not a party** to conversations, promises, or side agreements.

9) Invoicing and Taxes

For the **Remaining Service Fee**, the **Service Provider** must issue **invoice/receipt**. **Income/VAT/withholding** obligations rest with the Service Provider.

10) Reviews, Ratings, and Transparency

Self-reviews, incentivized/paid reviews, fake identities, and **organized manipulation** are prohibited. You may request a review, but **must not pressure** or impose scripts.

11) Platform Protection and Anti-Circumvention

Circumventing **prepayment** and/or Platform-mandated **single account/channel** payment routes is prohibited. The Platform may act against **false/misleading statements** and **unfair competition**. **Fair and measured criticism** is allowed.

12) Abuse, Violations, and Sanctions

Violations may lead to **warning → visibility limits → temporary/permanent suspension** and, if needed, **legal action**. **Repeated/serious breaches** may result in account closure and **damages**.

13) Personal Data and Visual Materials

Processing is strictly for the respective job under **KVKK** and the Platform's **privacy notices**. Client **photos/videos** are solely for evaluation; **download/copy/share/portfolio use** requires **explicit consent**.

14) Conflicts, Effect, and Updates

If these conflict with the **Service Provider Agreement** or the **Cancellation-Refund-Date Change Agreement**, the **special provisions** prevail. Effective **01.11.2025**; the **current version** is published on the Platform. Changes for security/compliance/operations apply **upon publication**.
